Dear John, 1/19/80

Relet 16:

If you reread Post Mortem you will find that I did not get prints of those pix the judge made the Archives take for me. I was even reduced to using a tracing I'd made, inset in a margin. They got away with deceiving the judge and all he ordered is that the pictures be talen and shown to me. Since HSCA televised the clothing I renewed the request, as the records should show, and was again turned down.

On the records, I do want to see them. I was under the impression when I gave you the release that you would send me copies as soon as you got them.

Each time someone gets records relating to me they include records with which I was not provided.

You really should reread what I wrote for I did not write that they took pictures of the front and back of the tie for me. In fact they took no pictures of the knot because the tie was unknotted and they couldn't. They took pic of the front and back flat surfaces of the tie. I asked for a side view of the knot, not one of the back, from the side of the knick

You may want to get your own rejection after the public uses by HSCA. If you ask you'll be rejected. But I don't think they'll destroy those negatives, not when those shots were taken by court order.

When you get the records I do want to go over them, thanks.

Sincerely,
